Subject: Techalloy Oct. 2016 Monthly Progress Report Review

EPA has reviewed the October 2016 Monthly Progress Report for the Techalloy Facility in Union, Illinois provided by Autumwood Consultants and dated Nov. 15, 2016. I have only a couple of comments.

Progress Made This Reporting Period:

1. The low water levels on Oct. 17 follows a reasonably substantial precipitation event, and occurred during a period of fairly heavy irrigation pumping, particularly along Kunde Road. Can we add transducers to monitor water levels at DGW-21 when the Ex. 4 Personal/Privacy (P) well is pumped in the future.

2. The first water level during the October monitoring was 23.06, not 23.09 ft.

Please correct in the copy you send on the cd.
 Respectfully,

John Nordine, CPG, LPG
